

THE BANERJI PROTOCOLS

A novel use of Homeopathy for Cancer and other Serious Illnesses

For The First Time in the UK!

Date: 28th and 29th May 2016

Time: 10am-5.30pm

Venue: UCL Institute of Neurology
33 Queen Square London
WC1N 3BG
(5-min walk from Russell Square Tube)

The Prasanta Banerji family developed the Banerji Protocols and this has resulted in making Homeopathy "the people's medicine" in India. At their foundation, large numbers of patients are treated on a daily basis at no cost. The aim of the PBH Research Foundation is to establish The Banerji Protocols as a scientific and effective mode of medicine. This Foundation offers comprehensive health care as well as gives scientific establishment to bring the treatment form to its rightful position as the medicine of the masses.

Cost: Early-bird special - £179.99/£199.00 thereafter

Seminar plus book - £245.00/£265.00*
